mark any alteration in the vehicle itself unless  
permission in writing is obtained from the competent  
Authority.

# Our Team

ZAKIR EARTH MOVERS is a group of dynamic young professionals and enterprise which draws vital support from its various individual entities to be able to execute turnkey projects, swiftly and efficiently. Further, we are committed to provide the highest quality products and best service in the industry, striving to exceed customer expectations. We have with us a diligent team of professionals who make use of contemporary machines and technology to meet the specific requirements our clients. Owing to our transparent business dealings and visionary approach, we have maintained cordial relationship with our old as well as new clients. We are headed by our mentor, whose viable experience and sharp business acumen has enabled us to establish a remarkable status in national market.

# Hard Rock Excavations

ZAKIR EARTH MOVERS is expert in hard rock excavations. Hard Rock Excavations are done by us without using any blasting methods, this excavation is for an Industrial building, factories, commercial buildings, residential apartments using heavy earth moving equipments and using latest without blasting technologies.

ZAKIR EARTH MOVERS technology is speeding up. There is new Innovations is happening in the field of rock excavation to excavate all types of hard at the earliest without using any blasting methods. In city areas, the whole construction Industry is depending upon these innovative

methods of rock breaking where rock blasting is strictly prohibited. 1. ZAKIR EARTH MOVERS using rock splitting method, using hydraulic rock splitters. 2. ZAKIR EARTH MOVERS use Rock sawing using diamond wire saw equipment.

3. ZAKIR EARTH MOVERS use Rock cracking using chemical expansion mortar to crack the rock and breaking it using hydraulic rock breakers.

4. ZAKIR EARTH MOVERS use bursting method using hydraulic rock busting rack equipments.

5. Rock breaking using excavator mounted heavy hydraulic Rock breakers to break the Rock.

## **Removing Debris & Transportation**

ZAKIR EARTH MOVERS assists businesses and Government agencies with removing demolished buildings, asphalt and other constructions materials. Our Experience Demolished Crew safely takes down dilapidated buildings and promptly transports the leftover. Rubbish to the appropriate location. No matter what type of debris removal services you need, ZAKIR EARTH MOVERS can get the job done right.

ZAKIR EARTH MOVERS also provide a durable transportation services. ZAKIR EARTH MOVERS also owns "10" heavy duty trucks and dumpers, with reliable and trusted riders. Our service, speed, efficiency and reliability have guided our growth since inception. The same has also helped us in earning great respect from the country's leading companies who have for the long entrusted their dispatches to us. Their strong faith is mute testimony of the reliability and efficiency of our organization. Changing times and requirements have meant that a consignment never leaves out system till the final delivery is made at the door of the customer. The competitive environment has created the need for the faster, efficient and high end transportation solutions.

## **EXCAVATION SOIL**

ZAKIR EARTH MOVERS soil Excavation Service utilises a controlled stream of compressed air to safely expose tree roots or other delicate objects that may be damaged or destroyed. It tackled mechanic soil- excavation.

ZAKIR EARTH MOVERS Technology is designed to assist architects, urban planners, arboriculture consultants or anyone who may be carrying out works adjacent to existing trees.

By delicately revealing the roots before any work is undertaken it is possible to compile a dossier of information regarding tree root spread and depth and also for revealing roots which may be growing around services such as sewer or water pipes.

We are able to vary the force of the air flow depending on the demands of the project.
